Makotchi-Ded Dontipi – Archaeological Dig Sites

The Lauder Sandhills of southwestern Manitoba provide a unique “ecological island” which is home to numerous late pre-contact sites (Hamilton and Nicholson 1999). The area is so rich in sites that it has been named the *Makotchi-Ded Dontipi* locale after a Dakota phrase meaning “the place where we live”

Places to See in Hartney

(For More info check the Grassland Special Places Project)

The Lewis Building (next door to the Hart-Cam Museum)
The former Presbyterian Church (1892) – now a private home on East Railway Avenue)
